SUMMARY

Product Designer with experience across enterprise SaaS, AI communication platforms, and consumer web products. Skilled in end-to-end product design, information architecture, interaction design, design systems, usability testing, and cross-functional collaboration from discovery through implementation.

EXPERIENCE

Dot and Beyond, Product Designer

September 2025 - August 2026 | Remote

Owned and contributed to end-to-end product design across enterprise SaaS, AI communication platforms, and hospitality products, spanning product discovery, UX/UI, information architecture, design systems, testing, and implementation.

AngelPBX.ai Ecosystem

- Redesigned enterprise telephony and admin workflows across AngelPBX, AngelGo, AngelECHO and AngelMeet, improving information architecture, navigation, and cross-product consistency.
- Contributed to the shared design system and designed AI-driven features including semantic CDR search, call intelligence, analytics, live-call monitoring, and audit workflows.
- Coordinated with stakeholders and developers from UX audit through implementation, proactively resolving design gaps and following through to ensure solutions were implemented as intended.

AngelECHO.ai

- Owned major parts of the UX for an AI voice/chat agent platform, including information architecture, Agent Editor, prompt generation, Conversation Flow, testing, deployment, and post-call analytics.
- Designed role-based Customer, Vendor, and Admin experiences, balancing user needs, business requirements, permissions, and operational workflows.
- Designed life cycle and HTML email experiences across demo, purchase, onboarding, integration, and support, extending the product experience beyond the core platform.

SAVOR Hospitality

- Independently designed the responsive website experience for a premium multi-venue hospitality group.
- Restructured venue discovery, reservations, loyalty, gift cards, offers, and conversion journeys.
- Created the luxury visual direction and collaborated with developers through implementation.

Binmile, UI/UX Design Intern

June 2025 - August 2025 | Sector 59, Noida

Worked across enterprise, e-commerce, infrastructure, and IT service-management projects, translating client requirements into user flows, wireframes, prototypes, and production-ready interfaces.

- Converted client requirements into user flows, information structures, and early interactive prototypes across multiple enterprise projects.
- Designed e-commerce buying guides and checkout experiences for a healthcare marketplace, including micro-interactions and high-fidelity prototypes.
- Designed a custom IT service-management portal on ServiceNow, adapting enterprise workflows into a clearer, task-focused user experience.
- Collaborated with client stakeholders and development teams to validate requirements, iterate designs, and support implementation.

FirstContact , UI/UX Design Intern

Dec 2024 - May 2025 | Remote

- Redesigned information architecture/navigation and key profile/member-search experiences.
- Improved accessibility/usability through iterative design and usability testing.

ADDITIONAL EXPERIENCE

Career Launcher , Operation and Client Manager

2023 | Noida

Managed student, parent, and faculty coordination, scheduling, resources, assessments, and day-to-day office operations.

Orange Events, Event Manager

2022 | Noida

Coordinated client communication, event operations, logistics, and on-site execution to deliver seamless event experiences.
